Universal Honored With 'Distinguished Supplier Award'

Houston, TX (June 12, 2006) – Universal Weather and Aviation, Inc. was one of only five companies recently selected by Dubai's Department of Civil Aviation (DCA) to receive the "Distinguished Supplier Award" in recognition of outstanding services.

The DCA operates the Dubai International Airport, which is the Middle East's busiest and largest, serving more than 24.7 million passengers in 2005. The awards were presented at the DCA's 8th Annual Supplier's Forum in Dubai on May 29. The Supplier's Forum focuses on the areas of quality, technology and strategic partnership with members from all sectors of the industry. This year's theme, "Building a strong alliance between all sectors of our national economy" was aimed at sharing common views and concerns and strengthening relationships between the DCA and its suppliers.

Zubair Butt, a member of the UVglobal Network[®] Development and Acquisition Group, accepted the award on behalf of Universal[®]. The Award was presented by H.H. Sheikh Ahmed Bin Saeed Al Maktoum, President of DCA and Chairman of the Emirates Group. An estimated 1,500 DCA and DDF suppliers were in attendance for this event.

In a letter to Universal, Jamal Al-Hai, DCA Director of Strategy and Management Excellence, Chairman of the Executive Board stated; "We would like to take this opportunity to congratulate your organization on your performance and cooperation in fulfilling DCA/DDF requirements and we hope to have continuous successful dealings with your organization in the coming years."
